In-line Screw Driving Machine

C100

promotion

Features:

Automatic Width Adjustment:

For different product size solutions, support fast switching directions.

Smart Screw Driving Control:

This system can continuously feed screws, maintain an accurate screw count, and prevent screws from being lost, mishandled, or improperly installed.

Intelligent Detection:

Screw defects, such as missing screws, floating screws, and sliding teeth can be detected.

Visual Positioning:

Can be set to a group of screw driving functions, control of screw driving process, guarantee the quality of the product.

Data Interaction:

Reserved RS232, RS485, Ethernet port. A variety of communication interfaces, which can communicate with external devices by MES.

Process Monitoring:

Real time display that can save all data, such as torque curve, torque value, rotation angle, process time, eligibility and more.

System Specification:

Model		PROMATION C100
Screw Driving Method		Air Suction/Air Blow
Motor Axis		3 axis
Voltage		100-240V AC
Total Power		1200W
Equipment Itinerary	X axis	400mm
	Y axis	500mm
	Z axis	100mm
Speed Range	X/Y axis	0.1~1000 mm/sec
	Z axis	0.1~300 mm/sec
Repeat Accuracy	X/Y/Z axis	± 0.01 mm
Working Area	X/Y axis	300x400mm
Screw Feeder Speed		1-300mm/s Adjustable
Screw Feeder Width		50-400mm Adjustable
The height of the screw feeder from the ground		900mm ± 20mm
Dimensions	W,D,H	800x1350x1650 mm

Dimensions:

Table-Top Screw Driving Machine

promotion

ET72H3KA

Features:

Movement Control System:

High positioning accuracy, Strong load capacity, Smooth low-speed operation, good high-speed performance, X/Y/Z Axis double guide rail, accurate operation.

Process Monitoring:

Real time display that can save all data, such as torque curve, torque value, rotation angle value, process time, eligibility and other data.

Intelligent Detection:

Screw defects such as missing screw, floating screws, and stripped screw conditions can be detected.

Smart Screw Driving Control:

This system can continuously feed screws, maintain an accurate screw count, and prevent screws from being: lost, mishandled, or improperly installed.

Data Interaction:

Reserved RS232, RS485, and ethernet ports offer a variety of interfaces, which can communicate with external devices and MES systems.

Touch Screen Programming:

Simple interaction, fast programming and great functions.

System Specification:

Model		PROMATION ET72H3KA
Screw Driving Method		Air Suction
Motor Axis		3 axis
Voltage		100-240V AC
Total Power		300W
Equipment Itinerary	X axis	200mm
	Y axis	300mm
	Z axis	100mm
Speed Range	X/Y axis	0.1~1000 mm/sec
	Z axis	0.1~300 mm/sec
Repeat Accuracy	X/Y/Z axis	± 0.01 mm
Machine Load	Y axis	8kg
Working Area	X/Y axis	160x270mm
Dimensions	W,D,H	400x630x800mm
Weight		65kg
